Scrap Grapples

GS60 | GS66 | GS72 | GS78 | GS84

Specifications

- Two independent-action hydraulic-powered grapples pick up and grip different-sized objects.
- 997-mm (39.3 in) grapple opening loads easily, letting you handle large payloads.
- Pre-drilled lip makes it easy to add an optional bolt-on replaceable cutting edge for longer life.
- Greaseable pivot points, hardened 25.4-mm (1 in.) pins, and hardened cylinder rods increase durability.
- Like all Worksite Pro™ attachments, these grapples are optimized to work with select John Deere E- and D-Series Skid Steers, Compact Track Loaders, and K- and J-Series Compact Wheel Loaders. They're also compatible with many competitive models and backed by a one-year warranty and one-of-a-kind parts and service. See your local John Deere dealer for details.
