Specifications

- Manual side shift conveniently allows trenching close to structures.
- Built-in skid shoe and indicators assist in maintaining digging control.
- Axle and wheel motor provide extreme durability. Heavy-duty planetary drive system eliminates the need for unreliable chain reduction.
- Spring-loaded boom reduces shocks to the hydraulic motor, skid steer or compact track loader, and operator.
- Trencher design allows easy entrance and exit from the skid steer or compact track loader.
- Standard heavy-duty crumbler removes loose soil for increased productivity.
- Optional chain width and tooth configurations available.
- Like all Worksite Pro™ attachments, these trenchers are optimized to work with John Deere D-Series Skid Steers and Compact Track Loaders, and are compatible with most competitive models. See your local John Deere skid steer dealer for details.
